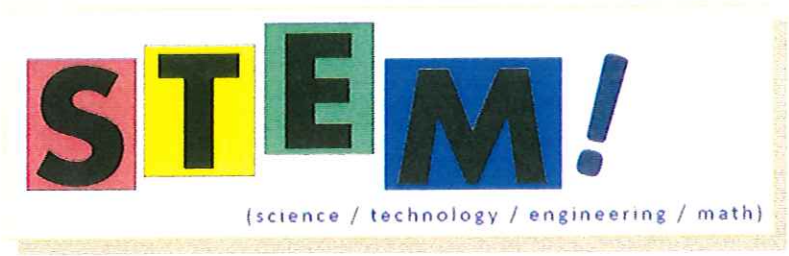
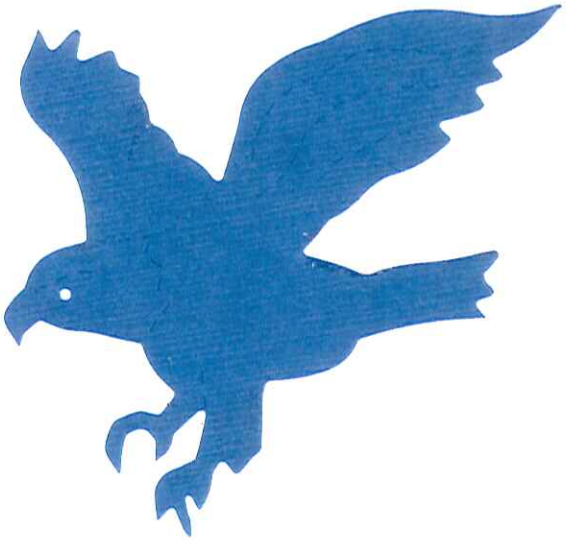
Thank You!



Sunset Valley Elementary School would like to thank you for you generous gift of time and supplies to provide an unforgettable educational experience to help our students understand the effect STEM has in the workplace and our lives.

Sincerely,

The Sunset Valley STEM Lead Teachers



Dear Lilas,

Thank you for coming to our school again this year. The students loved all the different science activities. Each presenter did an excellent job and the students learned a great deal while having fun. We appreciate you taking time out of your busy schedule to come to South Park Elementary Center.

Sincerely,
The Second Grade Team

4/22/15

Dear Ms. Saukup and friends,

Thank you for coming to our classroom. I think you did a good job. At first I thought that the uv beads were normal beads, but now I know they glow outdoors but not indoors because there is no sun. My favorite part was when we made the turbine because it was really fun.

From,

Maddie

Dear Dormont Elementary Families,

Today, your son or daughter competed in the second annual Dormont Elementary Science Olympiad! The Dormont Elementary faculty hopes you'll take some time to talk about the Science Olympiad experience with your child after school today.

The Science Olympiad is an elementary, middle, or high school competition which promotes knowledge of various science topics. Over 15,000 schools in 48 states compete each year, and Dormont has never hosted an event at the elementary level. The goals of the Olympiad are to improve the quality of science education, create a passion for learning science, and provide recognition for outstanding achievements and performance for the students. These goals were achieved by staging a competitive event in which teams of students engaged in 18 different interesting, hands-on experiments.

Ask your child about the day. Ask her about one thing she learned today that she didn't know before. Ask him what it was like to work as a team member to solve science problems. Ask her what was fun about the day. Ask him about his favorite Olympiad "event".

*This day would not have been possible without the hard work and dedication of fifth grade teacher Lori DeMartino and third grade teacher Kim Puffer. Mrs. DeMartino has been planning the Olympiad and seeking donations to fund it since **last** year's Olympiad! Along with Mrs. Puffer and a host of other volunteers, as well as generous donors of time, goods, and financial support from various other sources, Mrs. DeMartino and Mrs. Puffer planned and implemented an educationally rich experience for our students. Huge thanks goes out to Mrs. DeMartino and her team of volunteers, as well as to all of the Dormont faculty who participated in making the day a success.*

Finally, on the following pages, you will find a list of our sponsors, who cared enough about our academic community to support our Science Olympiad financially. We hope you'll show your appreciation by giving them your business. We would like to extend a very special thank you to all of our sponsors.

Science is an imaginative adventure of the mind seeking truth in a world of mystery.
-Sir Cyril Herman Hinshelwood, English Chemist, Nobel Prize (1956)

Corporate/Business Sponsors

Olympiad Event Sponsors ($400-$1500)
Dormont Elementary PFO

Gold Sponsors ($150-$399)
Salon Iaomo, LLC
VFW: McCormick-Dorman Post #694

Silver Science Sponsors ($100-$149)
Rohrich Toyota
Dr. Brian J. Pauchnik & Associates
Sunoco, West Liberty Avenue

Bronze Sponsors ($20-$99 or goods/services)
The Medicine Shoppe, Brookline
Cibrone Bakery
Giant Eagle, Rt. 88

Special thanks to National Energy Technology Laboratory for providing assistance with several of our activities today.

These businesses care about the education of our children! Please support them with your patronage.

Dear Lilas,

Thank you so much for coming out to Rowan! The hands on activities were right on target for my class and the exposure that they had truly impacted their learning. I look forward to working with you again next year.

Sincerely,
Angela Cadillo
