# U.S. DEPARTMENT OF ENERGY OFFICE OF ENERGY EFFICIENCY AND RENEWABLE ENERGY NEPA DETERMINATION

#### **RECIPIENT: PACCAR** STATE: WA **PROJECT TITLE :** Advanced Systems Level Technology Development, Integration and Demonstration for Efficient Class 8 Trucks CID Number **Funding Opportunity Announcement Number** Procurement Instrument Number NEPA Control Number DE-FOA0001447 DE-EE0008265 Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination: CX, EA, EIS APPENDIX AND NUMBER: Description: A9 Information gathering, Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual analysis, and dissemination design, feasibility studies, and analytical energy supply and demand studies), and information dissemination

(including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this subpart.) **B3.6 Small-scale research** Siting, construction, modification, operation, and decommissioning of facilities for smallscale research and and development, laboratory development projects; conventional laboratory operations (such as preparation of chemical standards and sample operations, and pilot projects analysis); and small-scale pilot projects (generally less than 2 years) frequently conducted to verify a concept before demonstration actions, provided that construction or modification would be within or contiguous to a previously disturbed or developed area (where active utilities and currently used roads are readily accessible). Not included in this category are demonstration actions, meaning actions that are undertaken at a scale to show whether a technology would be viable on a larger scale and suitable for commercial deployment. **B5.15 Small-scale renewable** Small-scale renewable energy research and development projects and small-scale pilot projects, provided that the energy research and projects are located within a previously disturbed or developed area. Covered actions would be in accordance with

development and pilot applicable requirements (such as local land use and zoning requirements) in the proposed project area and would incorporate appropriate control technologies and best management practices.
