**REFERENCES**

Integration of treatment systems in existing FGD management

- Scale-up production in treatment systems

**Future Work**

- Lower wastewater generation and easier management
- Lower energy consumption

**BENEFITS AND FUTURE WORK**

- High capital and O&M cost compared with existing treatment processes
- Lower capital and O&M costs compared with existing treatment processes

**PROJECT PROGRESS**

- High capital and O&M cost
- Requirements for management and disposal

**NEED**

- Requirements for management and disposal
- Requirements for management and disposal

**APPROACH**

- Meeting TP, treating waste in the plant, and
