Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Policy 4511), I have made the following determination:

FOR CATEGORICAL EXCLUSION/DETERMINATIONS

The proposed action is to the part of the project listed in the Rationale above for within a class of actions that is listed in Appendix B of 10 CFR Part 1021, Subpart D. Appendix B. A proposal must be one that would not: (1) include a violation of applicable statutes, regulatory, or permit requirements for environment, safety, health, or similar requirements of DOE or State Orders; (2) require siting or construction or major expansion of waste storage, disposal, recovery or treatment facilities or equipment; (3) significantly increase the disposal of materials posing significant risks to human health and the environment (such as RCRA hazardous wastes); or (4) have the potential to cause a significant increase in energy consumption in a state or region.

The NEPA Determination does not apply to the following Topic Areas, Budget Periods, and/or tasks:

A completed EQ is required for the TBD location sites/charging stations. A separate NEPA review is required for the TBD location sites. This CI covers all activities except the TBD location sites.

Notice:

This project number and recipient have previously received a CI on a previous work. This new CI has been signed due to the recipient adding additional project locations. The contract number reflects the prime recipient has received multiple NEPA determinations. As noted by the NEPA Control Number NET-0009225-0039, this is the thirty-sixth CI associated with this NEPA.

FOR CATEGORICAL EXCLUSION/DETERMINATIONS

The proposed action is to the part of the project listed in the Rationale above for within a class of actions that is listed in Appendix B of 10 CFR Part 1021, Subpart D. Appendix B. A proposal must be one that would not: (1) include a violation of applicable statutes, regulatory, or permit requirements for environment, safety, health, or similar requirements of DOE or State Orders; (2) require siting or construction or major expansion of waste storage, disposal, recovery or treatment facilities or equipment; (3) significantly increase the disposal of materials posing significant risks to human health and the environment (such as RCRA hazardous wastes); or (4) have the potential to cause a significant increase in energy consumption in a state or region.

The NEPA Determination does not apply to the following Topic Areas, Budget Periods, and/or tasks:

A completed EQ is required for the TBD location sites/charging stations. A separate NEPA review is required for the TBD location sites. This CI covers all activities except the TBD location sites.
