**PROJECT TITLE :** 

# U.S. DEPARTMENT OF ENERGY OFFICE OF ENERGY EFFICIENCY AND RENEWABLE ENERGY NEPA DETERMINATION

Advanced Prelithiation and Lithium Anode Manufacturing Facility

## **RECIPIENT:** Applied Materials, Inc.

STATE: CA

| Funding Opportunity Announcement Number  | Procurement Instrument Number                         | NEPA Control Number                        | CID Number |

| Pasad on my review of the information concerning the proposed action as NEPA C | ampliance Officer (authorized under DOF Policy 451 1) | ) I have made the following determination: |            |

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Policy 451.1), I have made the following determination:

#### CX, EA, EIS APPENDIX AND NUMBER:

| <ul> <li>analysis, and dissemination</li> <li>(including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, laboratory equipment, electronic hardware, manufacturing machinery, manufacturing machinery, manufacturing and health and safety equipment), provided that uses of the installed or relocated items are consistent with the general missions of the receiving study.</li> </ul>   | scription: |                             |  |  |
|---|------------|-----------------------------|--|--|
| assistance to organizations         Technical advice and planning assistance to international, national, state, and local organizations.           B5.15 Small-scale renewable<br>energy research and<br>development and pilot projects.         Small-scale renewable<br>actions would be in accordance with applicable requirements (such as local land use and zoning requirements) in the projects are located within a previously disturbed or development<br>actions would be in accordance with applicable requirements (such as local land use and zoning requirements) in the proposed project area and would incorporate approp<br>technologies and best management practices.           B1.31 Installation or relocation<br>of machinery and equipment, and the altery equipment), provided that uses of the installed or relocated items are consistent with the general missions of the receiving structure. Covered action<br>and health and safety equipment), nor ocntiguous to a previously disturbed or relocated items are consistent with the general missions of the receiving structure. Covered action<br>and diffications to an existing building, within or contiguous to a previously disturbed or developed area, that are necessary for equipment installation<br>and the structure. Covered action |            | analysis, and dissemination | Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation<br>(including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document<br>publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this<br>subpart.)  |  |
| <ul> <li>energy research and actions would be in accordance with applicable requirements (such as local land use and zoning requirements) in the proposed project area and would incorporate approp development and pilot projects</li> <li>B1.31 Installation or relocation and operation of machinery and equipment (including, but not limited to, laboratory equipment, electronic hardware, manufacturing machinery, manufacturing machinery, manufacturing machinery, provided that uses of the installed or relocated items are consistent with the general missions of the receiving structure. Covered action modifications to an existing building, within or contiguous to a previously disturbed or developed area, that are necessary for equipment installation and relocation. Such machinery</li> </ul>   |            |                             | Technical advice and planning assistance to international, national, state, and local organizations.   |  |
| of machinery and equipment and health and safety equipment), provided that uses of the installed or relocated items are consistent with the general missions of the receiving structure. Covered action modifications to an existing building, within or contiguous to a previously disturbed or developed area, that are necessary for equipment installation and relocation. Such m   |            | energy research and         | Small-scale renewable energy research and development projects and small-scale pilot projects, provided that the projects are located within a previously disturbed or developed area. Covered actions would be in accordance with applicable requirements (such as local land use and zoning requirements) in the proposed project area and would incorporate appropriate control technologies and best management practices.   |  |
|   |            | of machinery and equipment  | Installation or relocation and operation of machinery and equipment (including, but not limited to, laboratory equipment, electronic hardware, manufacturing machinery, maintenance equipment,<br>and health and safety equipment), provided that uses of the installed or relocated items are consistent with the general missions of the reseiving structure. Covered actions include<br>modifications to an existing building, within or contiguous to a previously disturbed or developed area, that are necessary for equipment installation and relocation. Such modifications would not<br>appreciably increase the footprint or height of the existing building or have the potential to cause significant changes to the type and magnitude of environmental impacts. |  |

Rationale for determination:

#### NEPA PROVISION

DOE has made a final NEPA determination.

Notes:

## This CX applies to activities at Applied Material's location in Sunnyvale, CA. An additional CX was signed for their proposed activities in Lynchburg, VA.

### FOR CATEGORICAL EXCLUSION DETERMINATIONS

The proposed action (or the part of the proposal defined in the Rationale above) fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D. Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

There are no extraordinary circumstances related to the proposed action that may affect the significance of the environmental effects of the proposal.

The proposed action has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

DOE has determined that work to be carried out outside of the United States, its territories and possessions is exempt from further review pursuant to Section 5.1.1 of the DOE Final Guidelines for Implementation of Executive Order 12114; "Environmental Effects Abroad of Major Federal Actions."

The proposed action is categorically excluded from further NEPA review.

## SIGNATURE OF THIS MEMORANDUM CONSTITUTES A RECORD OF THIS DECISION.
