Utility Services Manager  
City of Lake Worth Beach

Re: Letter of Commitment for the City of Lake Worth's Grid Resilience and Innovation Partnership  
Funding Opportunity (GRIP)

Dear Mr. McKee:

As a full-service electric power contractor capable of performing overhead and underground distribution, substation, transmission, and vegetation management work, Hooper offers you this letter of commitment, to build upon our current support the City of Lake Work Beach in upgrading its aging energy delivery infrastructure, and to describe the work to which we are committing, if your city is award GRIP funding.

Our commitments to the projects for which you seek federal funding will include the following types of work and materials: 1) structure installations, including wood, laminate, and steel; 2) conductor installations of all sizes and configurations, including single conductor, bundled conductor, T2, and more; 3) fiber optic installation; 3) re-conductoring and upgrades; 4) line relocations; 5) live line work; 6) pole changeouts; 7) street lighting; 8) directional drilling; 9) trenching, backfilling, and compaction; 10) conduit, ductbank, and manhole systems; 11) installation of direct buried conductor and wire in conduit; 12) high voltage cable installation, terminating, and splicing; 13) installation of pad and vault-mounted equipment, including transformers and sectionalizing.

Related to all of the aobe-described work, Hooper Corporation's employees, in all divisions, undergo extensive safety training to ensure accident-free work sites.

Very Truly Yours,  
Hooper Corporation

Jake Davie  
Vice President

RE: City of Lake Worth Beach U.S. Department of Energy Grid Resiliency and Innovation Partnership  
(GRIP) Program Grid Resilience and Smart Grid Grant Programs

Dear Ms. Davis:

Restore It All, INC is pleased to offer this letter of commitment in support of the City of Lake Worth Beach electric utility grant application to the U.S. Department of Energy for Grid Resilience and Smart Grid Grant program funding. GRIP funding made available through this grant opportunity will enable the City to innovate grid flexibility and improve the resilience of the power system's electrical grid through major infrastructure upgrades against growing threats of extreme weather and climate change, while also creating good paying jobs and other community benefits and impacts.

Restore It All, INC is a competent company that delivers with safety first! We offer customer service to the core which comes along with accountability, persistence, sustainability, teamwork and most of all trust.

Restore It All, INC will assist the City's Grid Resilience and Smart Grid Grant program initiative by providing conduit installation by different methods (missile bore, directional bore and trenching), cable pull (feeder, primary and secondary), and restoration (asphalt, concrete, stucco and sod).

On behalf of Restore It All, INC we fully support the City of Lake Worth Beach's request to the U.S. Department of Energy for Grid Resilience and Smart Grid Grant program funding and strongly recommend consideration by the U.S. Department of Energy to select this initiative. Together, we look forward to strengthening and advancing equality within our community!

Thank you,

  
Silvia Svera  
President

RE: Letter of Commitment to participate in the City's proposal for a Grid Resilience Grant (Topic Area 2)

Dear Mr. Liberty,

The following letter of commitment details the way in LE Meyers Co. will support the City of Lake Worth Beach in implementing its Grid Resilience Grant (if awarded).

L.E. Myers has been competitively procured to provide the following services on the proposed projects:

- 1) distribution construction;
- 2) transmission Construction;
- 3) substation construction;
- 4) storm restoration;
- 5) upgrades to the distribution system, including replacing and upgrading transformers, which will involve the installation of pad mounts and pole mounted poles as well as the use of wood, concrete, ductile iron materials;
- 6) Removing and installing wire and cable, both primary and secondary;
- 7) and rebuild substations.

Sincerely,

Danny M Gessman  
Regional Vice President, T&D

RE: Letter of Commitment for DOE GRIP Topic Area 2 Grant Compliance Support

Dear Mr. Liberty,

Grant Management Associates is pleased to offer this letter of commitment to provide grant compliance support for your DOE GRIP "Smart Grid"/Topic Area 2 grant if it is funded. Grant Management Associates is a federally recognized Women-Owned, State Certified Small Business in California that specializes in grant services, including post award compliance.

Our compliance support will include the following seven services and responsibilities over the 5 budget years of the grant: 1) develop and provide training for LWB staff on post-award compliance; 2) review bid documents and draft award decisions for compliance with federal regulations; 3) develop invoicing and reporting templates for contractors; 4) prepare programmatic reports; 5) manage the final submission of invoices and provide ongoing coordination with DOE on budget amendments and grant modifications; 6) budget forecasting and spend-down analysis; and 7) provide technical assistant to consultants. We will also provide fiscal compliance services including; ensuring policies and procedures are compliant, preparing and submitting financial reports as required by the federal reporting checklist, grant compliance and procedural support during the annual single audit completing the closeout process.

We appreciate the opportunity to support the city on this important project.

Sincerely,

A handwritten signature in black ink, appearing to read "Kristin Cooper". The signature is fluid and cursive, with a long horizontal stroke at the end.
