CCS deployment in Norway

Freddy Garcia

Gassnova

Established 2005, owned by the Norwegian state

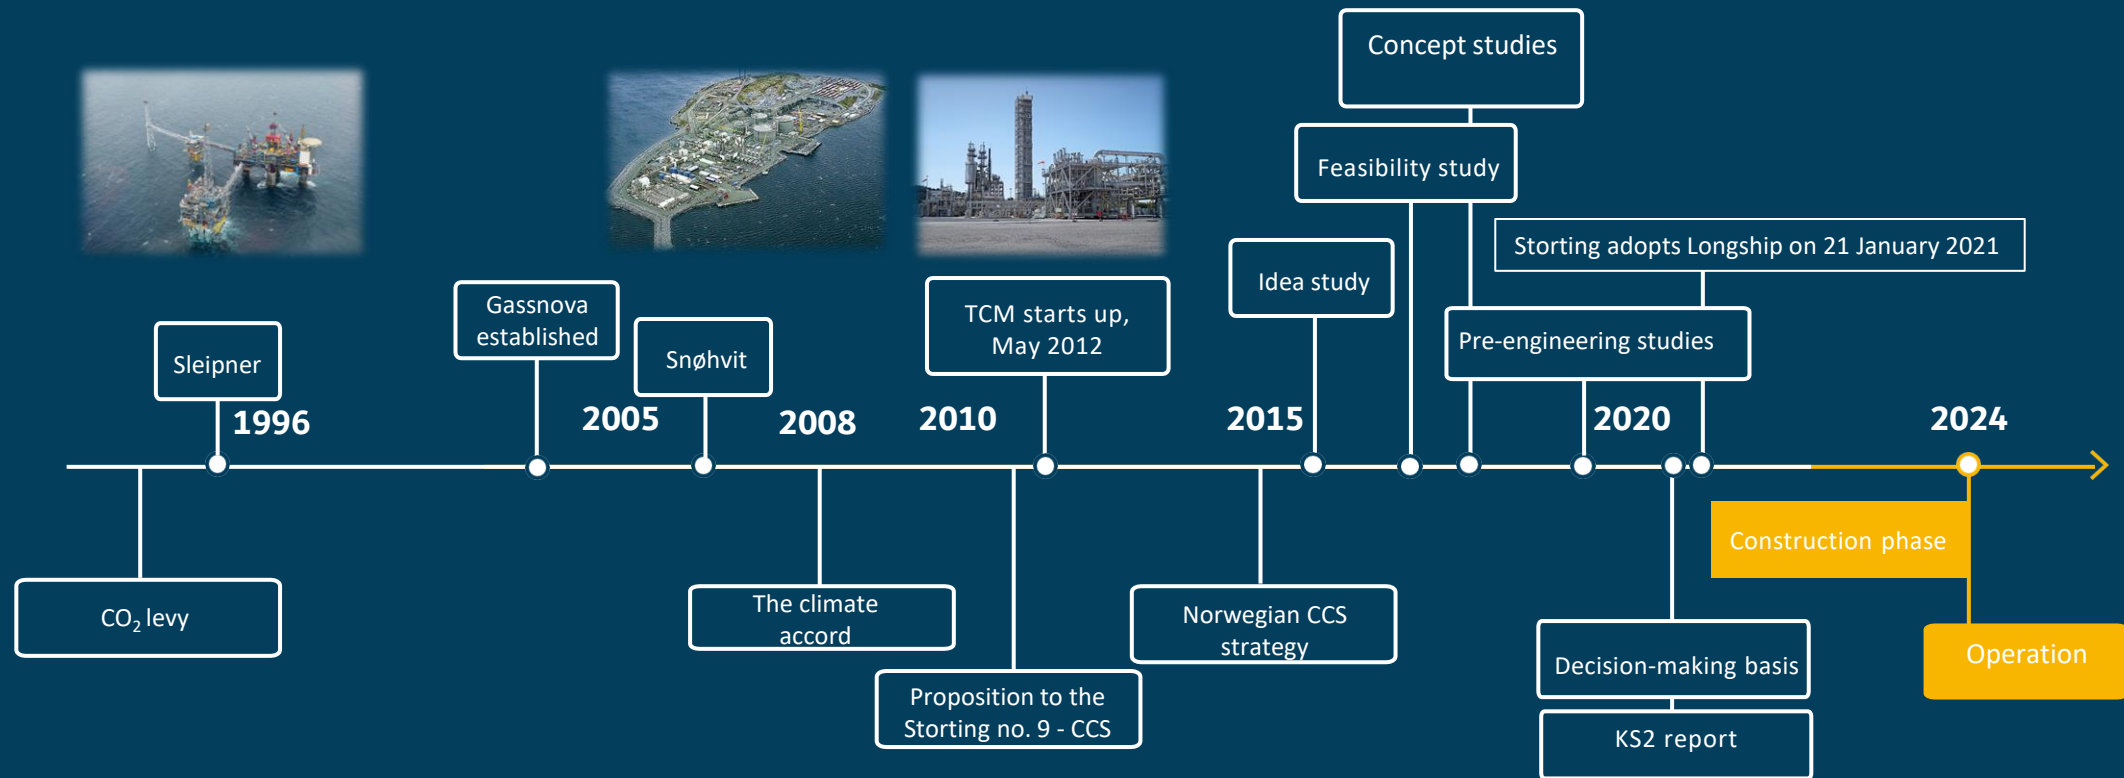

Facilitate development of technology and competence to ensure cost efficient CCS solutions

Advise Norwegian government on CCS

- CLIMIT programme
- Technology Centre at Mongstad (TCM)
- Longship project

Norwegian CCS: A History

Northern Lights

Celsio

Longship
is underway

Norcem

GASSNOVA

- Norwegian full-scale CCS project
- 3rd party volumes of CO₂
- Alternative storage projects

Source: Northern Lights

REGULATORY LESSONS LEARNED FROM LONGSHIP

The public sector's involvement in
Europe's first industrial CCS chain

Sharing knowledge with industry, government bodies and others

- Sharing knowledge is one of our key objectives!
 - CCS is safe and technically feasible
- Paving way for new projects
