

SA Alexander T. Shaffer has worked for the FBI for 10 years - six (6) of which has been spent working national security matters with the FBI's Pittsburgh Field Office. Prior to his assignment in Pittsburgh, SA Shaffer spent time at FBI Headquarters in Washington, DC and at the FBI's Washington, DC Field Office. SA Shaffer specializes in foreign counterintelligence and weapons of mass destruction investigations. SA Shaffer currently serves as the FBI Agent-In-Lab (AIL) at DOE NETL, a role he has held since January 2026. In this role SA Shaffer serves the counterintelligence missions of the FBI and the DOE by functioning as a liaison between the two organizations. SA Shaffer is focused on protecting critical research information from unauthorized acquisition by foreign nations and mitigating the risk of insider threats at NETL.

SA Shaffer is married with two children and calls Western Pennsylvania home.
