

- NNSA-NEST Human Factors Laboratory, Program Manager
- After earning gold for the US Team in wrestling in the 90s, Scott Sonnon earned a Master of Sport from Russia as the only American to complete the Spetsnaz GRU Human Performance qualification course, a Master of Science in Stress Physiology, and is completing a Ph.D. in the Organizational Psychology of NNSA Culture. He has developed human performance programming for over 90 agencies to include USSOCOM, JSOC, elements of National Mission Force, DIA, CIA, and the FBI.

He has served with the NNSA since 2016 where he was tasked to develop the NEST Human Factors Laboratory.
